

How to Grow a Carton Garden

You will need:

- An empty juice carton
- Scissors
- Seeds
- Potting compost

What To Do:

Cut out one side from your carton.

Water well.

Fill the carton with potting compost.

Leave in a greenhouse or on a windowsill. Water regularly.

Plant the seeds according to the instructions on the packet.

Top Tips:

- Plant out seedlings once they are big enough to be transferred.
- Smaller plants, such as herbs can be kept in the cartons.
- Use string to hang up your flowering plants outside.

How to Grow a Carton Garden

You will need:

- An empty juice carton
- Scissors
- Seeds
- Potting compost

Step 1

Cut out one side from your carton.
